INTRODUCING

Your Personal *AI Artist*

Say a word, birth a painting.

This is not just a quiet decorative piece — it's your personal AI artist. With just a voice command, your imagination instantly transforms into stunning masterpieces that accompany your daily life. Speak to the frame, and let art emerge from your voice.

Voice Generation

Talk directly to the frame — "Hey KoKonna, draw a sunset over the mountains" — and watch your words become art in seconds.

Text Prompts

Type any description and let the AI engine transform your imagination into a gallery-worthy masterpiece with stunning detail.

Sketch to Art

A simple hand-drawn sketch, refined by AI, instantly becomes a detailed illustration. Children's doodles become wall-worthy art.

100+ Art Styles

From abstract expressionism to traditional ink wash, Picasso to cyberpunk — each piece maintains authentic texture and visual language.

TACTILE AUTHENTICITY

Paper-like Texture. *Zero Glare.*

Powered by **E Ink Spectra 6™**, a revolutionary full-color electronic paper technology. It is widely regarded as the display solution closest to authentic paper color printing, offering unprecedented color saturation and vividness.

- ◆ **Multi-Particle Drive** — Each micro-unit contains charged particles in four colors on the Microcup® platform
- ◆ **60,000+ Colors** — Six primary colors blend into smooth, gallery-quality full-color transitions
- ◆ **Zero Blue Light** — No backlight, no glare, no eye strain — looks exactly like real paper
- ◆ **Brighter = Better** — Reflective display means it looks more vivid in brighter rooms
